

# Unit4 Job description

Job title: Test Analyst  
Reports to: Domain Manager  
Reporting company: UNIT4 R&D Spain  
Location: Granada  
FTE: 1.0 FTE  
Full-time/part-time: Full-time

We are Unit4, a leading provider of enterprise applications empowering people in service organizations. We are on a mission, because we no longer accept the digital downgrade that people experience when they swap their personal devices for their work ones. We create business software that works the way people want, not the other way around.

Our R&D team in Granada, Spain is looking for a Test Analyst who will execute test cases, monitor test coverage and evaluate overall quality experience while executing test plans and report test progress and defects, weaknesses and usability issues. Do you want to be the hands-on team player of a scrum team? Do you want to engage in planning and design, and to effectively and efficiently find defects and weaknesses in solutions? Are you the internal voice of the customer to the team; keeping the team honest about the quality and effectively execute integration testing and all testing phases of the development life cycle? And, are you ready to work with colleagues across Europe and be exposed to different cultures? Join our team and apply now!

## What you will do

- You are in charge of delivering detailed and prioritized test plans that meet the testing strategy and product vision;
- You review and provide feedback on test driven development activities to ensure the highest quality coverage and test automation;
- You take part in planning and grooming sessions during sprints, and you review user stories;
- You are able to propose new designs and drive testability improvements for every solution.

## Your approach

As a Test Analyst you have a high degree of self-initiative and always look for the best solution for the customer. You deliver quality with use of your creative mind and your constant drive to outperform. Furthermore, you pay attention to the smallest details during the planning of tests and make sure that the team delivers high quality assessments. It is important to you to stay up-to-date with the latest technologies and possibilities of our software and trends in your field.

## We ask

- A keen eye for detail and analysis, and you always keep the users' needs and wants in mind;
- A challenging and inquisitive mind; you are curious about how things work and opinionated on how things are supposed to work;
- Not afraid to make mistakes and learn from them;
- Good at interacting in English with your colleagues, both verbally and in writing.

## We offer

# Unit4 Job description

- A chance to participate in the development of one of the best ERP solutions in the world;
- Challenges and possibilities in an international environment, while enjoying the benefits of being based in Granada;
- A high level of flexibility and independence;
- We invest in your personal and professional growth;
- Enthusiastic colleagues who want to learn from each other;
- Room for new initiatives and ideas.
